TEAM FENEX LAUNCHES NEW WEBSITE

Sandoval, IL – TEAM FENEX, A Leggett & Platt Commercial Vehicle Products Company that manufactures trailer and truck mounted power products including: portable ac solutions, spot cooling units, mobile power packages, fiber optic splicing units, fresh air ventilation systems, standby power generators, traffic control arrowboards, and a wide range of accessories required for the underground utility construction industry, has announced the release of an all-new company website, www.teamfenex.com. The dramatic overhaul embodies TEAM FENEX's commitment to the expanding needs of their customers.

The updated website has a very clean and modern look that makes navigating it very user friendly. Customers can search by product or by their industry to find products that are compatible for their everyday jobs. TEAM FENEX customers, with the touch of a button, will be able to request a quote twenty-four hours a day. The site also features information about the company, recent news and events, new product launches, catalogs, and specials.

"Historically at TEAM FENEX we have never taken a back seat to innovative technology. Our commitment to quality and market needs, along with great customer service is what has established us a market leader. The new and upcoming enhancements to the Web portal are just another step in this process," stated Luciano Rapa, Director of Sales & Marketing.
